BURO QUALITY & ERGONOMIC ASSURANCE

USER INSTRUCTIONS

The Active Metro II Connect chair is designed to move and support active movement and accomodate users up to 120kg. To enjoy the active seating experience with safe operation, it is important the user's weight is fully supported at all times by their feet being in contact with a flat floor surface.

ERGONOMIC ASSESSMENT
ERGONOMICS AT WORK

BURO ACTIVE METRO II
CONNECT CHAIR

“The active base is an excellent ergonomic addition to conventional seating. It can assist in muscle and joint movement and fluid flow leading to reduced fatigue, foot swelling and spinal compression. The added stimulation of sensory nerve endings is likely to reduce conscious awareness of pain or pressure points.”
